# SOLUTIONS FOR PICK-UP TRUCKS

## GARMENT RAILS KST TA

Order-No.: 26 750 00 000 00

Alternative designs are possible

### PERFORMANCE:

End-fitting: connecting hook for airline end-fitting  
14 000 00 380 00

Axle Tube: chrome tube diameter 35 mm, length 1370 mm

Fixing Axle: square tube 15 x 15 powder coated black

Velcro Strips: 2 pcs.

Suitable for: telescopic tube both sides (2 x 130 mm) resulting in universal application in vehicles  
optimum length of axle tube on demand assembly upon request

Weight: approx. 4.9 kg

Suitable for: hanging transport of clothes in pick-up truck

## Shoring beams

Shoring beams made of steel or aluminium have a telescope with spring and can be used horizontally or vertically – when lashing tracks / hole tracks are available.

Please advise following details:

- internal dimension (clearance) between the tracks
- kind of section / profiles: round D=42 mm steel or aluminium  
D=35 mm steel  
square 40x40 mm steel
- faucet guiding: diameter 19 or 24 mm  
or for tracks with rods
- protection coating for round 42 mm is possible

Vertical mounting between the hole tracks – positioned transversally in driving direction is suitable especially for the transport of bulky components.

## Cargo nets made of lashings

## Lashing straps

Textile safeguarding such as lashing straps and especially cargo nets are also produced according to individual requirements of customers – besides various designs already practically proved.
